EXPERIENCE

Transmobil Sp. z o.o. - PHP Developer

January 2025 – Present

Full-time

I am developing a subscription-based online store with recurring payments (SaaS platform). I created a fully functional KSeF (government online invoicing system integration) module for the proprietary CRM. The store is integrated with KSeF, CRM, and the Telematics system.

Examples of developed software:

- **Subscription based Store** - dedicated store built from scratch without any framework, based on subscriptions, recurring payments, and payment gateways.

Tech stack: PHP, OOP, ORM, Moustache, JQuery, JS, HTML5, CSS3, Bootstrap 5

- **KSeF Module for proprietary CRM** - created a module based on CRON tasks with full monitoring, logging, and error handling. It fetches invoices, sends invoices, creates offline invoices, and generates KSeF-compliant QR codes.

Tech stack: PHP

Freelance Programmer

May 2023 – December 2024

Freelance

I developed software for online stores, modules, scripts, store-to-API integrations, data scrapers, REST API interfaces, mobile applications, and dedicated software.

Examples of developed software:

- **Enova365 API** - interface that enables connection between Enova ERP and external software.

Tech stack: C# .NET core 6

- **PDF Invoice Parser** - software that extracts data from invoices and imports it into ERP systems.

Tech stack: Symfony PHP

TECHNOLOGIES

Advanced knowledge:

React, Expo, React Native, Redux, React classes/hooks, JS DOM

Python, Django,

Django Rest Framework,

PHP, HTML5, CSS3, JavaScript, TypeScript,

REST API, OOP, MVC,

MySQL, PostgreSQL SQLite,

Linux (Debian/Ubuntu),

CMS (Prestashop, Wordpress),

DRY, SOLID, KISS,

Git

Intermediate knowledge:

C++, C#, .NET,

JQuery, MSSQL,

Apache2, Nginx,

Windows Server,

Docker

Work environment:

Slack, Gitlab, VSCode

LANGUAGES

Polish – Native, English – B2

- **Mobile store keeper** - WMS application for Android/iOS and data collectors that helps staff manage the store.

Tech stack: React Native, Typescript, Symfony PHP, Fast API, MySQL, SQLite, Git, Docker

Seigo – Software Programmer

May 2021 – May 2023

Freelance (1/3 time)

Examples of developed software:

- **Competitor Price Analyzer** - online store module that allows the owner to pair products and automatically adjust prices to match competitors.

Tech stack: Prestashop, Composer, PHP, MySQL, Smarty, JQuery

- **Mobile Application** for scanning and setting product locations in the store using a barcode scanner (camera/laser).

Tech stack: React Native, Typescript, Prestashop, PHP, MySQL

Metalzbyt sp. z o.o. – IT Specialist

July 2020 – March 2023

Full-time

I developed modules for a PrestaShop-based store and created the “Mobile Warehouse Worker” WMS application for phones and data collectors. I worked as helpdesk supporting employees with the Enova365 ERP system, wrote C# scripts and improvements for it, and created scripts to streamline work for accountants, sales staff, and salespeople. I also laid network cables between buildings, expanded monitoring, and ensured continuity of IT equipment (payment terminals, monitoring, computers, printers, fiscal printers).

Examples of developed software:

- **Mobile Warehouse Worker** (Android, iOS, data collectors) application that helps warehouse staff manage inventory. Employees can search products by scanning barcodes, print labels, create order lists, and import them into the ERP system.

Tech stack: React Native, Expo, React, Redux, Typescript, Django Rest Framework, Python, PHP, ZPL II, MSSQL, SQLite, MySQL, Git

- **Debt Collection Module** (.NET Core) software that automatically sends and manages debt collection messages to customers with overdue payments.

EDUCATION

**Gdańsk University of Technology, Faculty of Electronics,
Telecommunications and Informatics, Computer Science –
Master's degree**

2024 – Present

**University of Warmia and Mazury in Olsztyn, Faculty of
Mathematics and Informatics, General Computer Science –
Engineer's degree**

2016 – 2020

**Technical Economic School No. 7 named after Mikołaj Kopernik in
Olsztyn – IT Technician**

2012 – 2016

CERTIFICATES / ADDITIONAL COMPETENCIES

- Qualified in the profession of IT Technician:
E.12, E.13, E.14
- Category B driving licence

I hereby consent to the processing of personal data contained in my job application for the purposes necessary to carry out the recruitment process in accordance with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) (OJ EU L 2016.119.1).
